ZELLCHEMING-Expo 2026: A powerful hub for innovation, networking, and new ideas

ZELLCHEMING-Expo has always represented technical depth, innovative strength, and intensive exchange throughout the paper and pulp industry's entire value chain. In 2026, we will once again provide a platform for our visitors to explore forward-looking technologies, practical solutions, and current industry trends.

Together with our partners and exhibitors, we will create a space for knowledge transfer, networking, and new ideas at the RheinMain CongressCenter in Wiesbaden. I am confident that ZELLCHEMING-Expo 2026 will send a powerful message about our industry's performance and innovative spirit.

Petra Hanke, Managing Director
ZELLCHEMING Service GmbH

Top Topic

- **The Future of the Paper Industry – Which concepts, business areas, and framework conditions will ensure the industry's competitiveness?**

Transformation processes and market shifts require a rethink. However, flagship projects in Germany and Europe demonstrate the opportunities arising from a functioning circular economy against the backdrop of revolutionary legislative pacts.
